Reasons for Allowance

Claims 1-3, 5, and 22-29 are allowed.

The following is an examiner's statement of reasons for allowance: the applicant's arguments that the Caccavale patent does not predict a response time of each of the plurality of servers based at least in part on an aging factor applied to a time stamp difference is considered persuasive. More specifically, Caccavale does not teach the use of an aging factor that corresponds to an aging function like the one defined by page 28 of the applicant's specification in the context of the applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas B. Blair whose telephone number is 571-272-3893. The examiner can normally be reached on 8:30am-5pm Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Caldwell can be reached on 571-272-3868. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
